DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Thursday, 01 June 2023 at 05:56 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Although fine conditions prevail, somewhat breezier conditions on Thursday across the UK should help to disperse pollutants and keep air pollution at Low levels for all.

Tomorrow: Widely Low levels of air pollution persisting on Friday, although a few small areas of Moderate pollution are possible in or near urban areas where winds are lighter.

Outlook: Similar conditions persist over the weekend and early next week, resulting in generally Low air pollution and small pockets of Moderate pollution.
